

I could not work in all of these, so I added tooltips and a model: to the what we do page, and popovers(two types) to the who we are page.

- **Custom typography:**
 - used in Jumbotron header text
- **Tables:**
 - Who's cooking page
- **Images:**
 - Front page- rounded
 - Who we are
 - What we do thumbnail & circle
 - What we do
- **Jumbotron:**
 - used site navbar.php,
 - footer.php with with a well & pagination
- **Wells:**
 - menu page
 - footer.php with with a well & pagination
- Alerts
- **Buttons, Button Groups:**
 - used in footer for social media buttons
 - Used on menu page with collapse
 - Used in "sign-in" & "login" in header
- **Glyphicons:**
 - used in footer for social media buttons
 - Used in "sign-in" & "login" in header
- Badges
- **Progress Bars:**
 - Used after form is filled out and sent, shows up in the reply
- **Pagination:**
 - footer.php with with a well & pagination
- Pager
- List Groups
- **Panels: & panel groups**
 - Used on menu page
- **Dropdowns:**
 - used site navbar.php,
- **Collapse**
 - Used on menu page with buttons
- Tabs/Pills
- **Navbar :**

- used site navbar.php,
 - footer.php with with a well & pagination
- **Forms:**
 - used on contact us page
 - Login page
- **Inputs**
 - used on contact us page
 - Login page
